KABELTEC.

OPTIMALLY CONNECTED FOR 28 YEARS.

kabeltec has been producing cables and wires since 1988.

kabeltec has been known for its extraordinary dedication since 1988.

kabeltec has been renowned for its expertise and continuous development since 1988.

kabeltec has been known for its cross-sector problem-solving expertise since 1988.

kabeltec has been passionate about customer proximity since 1988.

This is all good news for you.
But what's even better is that we have big plans and want to achieve new goals with you.

We cordially invite you to get to know or rediscover kabeltec. Experience why we always give our best for you and are so successful, as well as the benefits we offer both today and in the future.

Best regards,

Berthold Polte
Managing director

Timo Polte
Managing director

COMPLETE PROFESSIONALS.

WELL CONNECTED FROM THE VERY BEGINNING

We know what we are doing, which is why we have been so successful since 1988. But that's not what makes us really proud. Rather, it's that our customers appreciate how we are always on the ball and do everything we can for you.

FROM PERSON TO PERSON

Exceptionally helpful – kabeltec does not see itself as a supplier, but rather as a service provider who always has an open door for its customers.

FROM 3 TO 900,000

Exceptionally diverse – kabeltec's customers include companies of all sizes, from small three-person operations to global corporations. And we're very proud of this.

FROM A TO Z

Exceptional variety – kabeltec offers a complete range of cables and wires as well as special solutions.

FROM TRAINEE TO PRO

Exceptionally competent – kabeltec has a team of qualified employees who understand how things are meant to work.

FROM 0 TO 100

Exceptionally flexible – kabeltec is on hand to offer fast, simple help in cases of emergency. So you might even receive your cables before the delivery note ...

FROM NORMAL TO SPECIAL

Exceptionally focused on value – kabeltec offers cost-efficient design and development services. At kabeltec, systems solutions come as standard.

FROM OUR HEAD OFFICE TO THE WORLD

Exceptionally reliable – based in Baden-Württemberg, kabeltec follows in the tradition of the southern German working philosophy. High quality when it comes to our products. Honest when it comes to business. And uncompromising when it comes to customer focus.

FROM START TO FINISH

Exceptionally holistic – kabeltec helps you during product development and production from the initial idea, providing honest consulting in cable selection, meticulous production checks, effective test runs and highly punctual delivery.

MARKET SIZE.

5,000,000

Number of cycles simulated by kabeltec in its own drag chain test facility based on customer requests (factory acceptance tests: FAT)

48,000

Average weight [in kg] of the cables which make their way to our customers every day.

0

Average number of delayed kabeltec deliveries.

25

The number of countries in which kabeltec has branches.

8

Production lines

The first two digits of the postcode of our head office in Baden-Württemberg – the land of quality, reliability and ingenuity.

78

1988

Year established as well as the time since which we have been recording above-average sales growth.

4000

Number of products in the kabeltec portfolio.

12

Braiding machines

SERVICE SUPPLIER.

WE MAKE CONTACT AND ARE ON YOUR WAVELENGTH.

Whatever your area of application, our cables will connect you: Worlds and people – across great distances – for a long, long time.
With eight production lines and twelve braiding machines, production and packaging with kabeltec's equipment are designed to ensure precisely manufactured cable connections for industry-specific applications and standards.

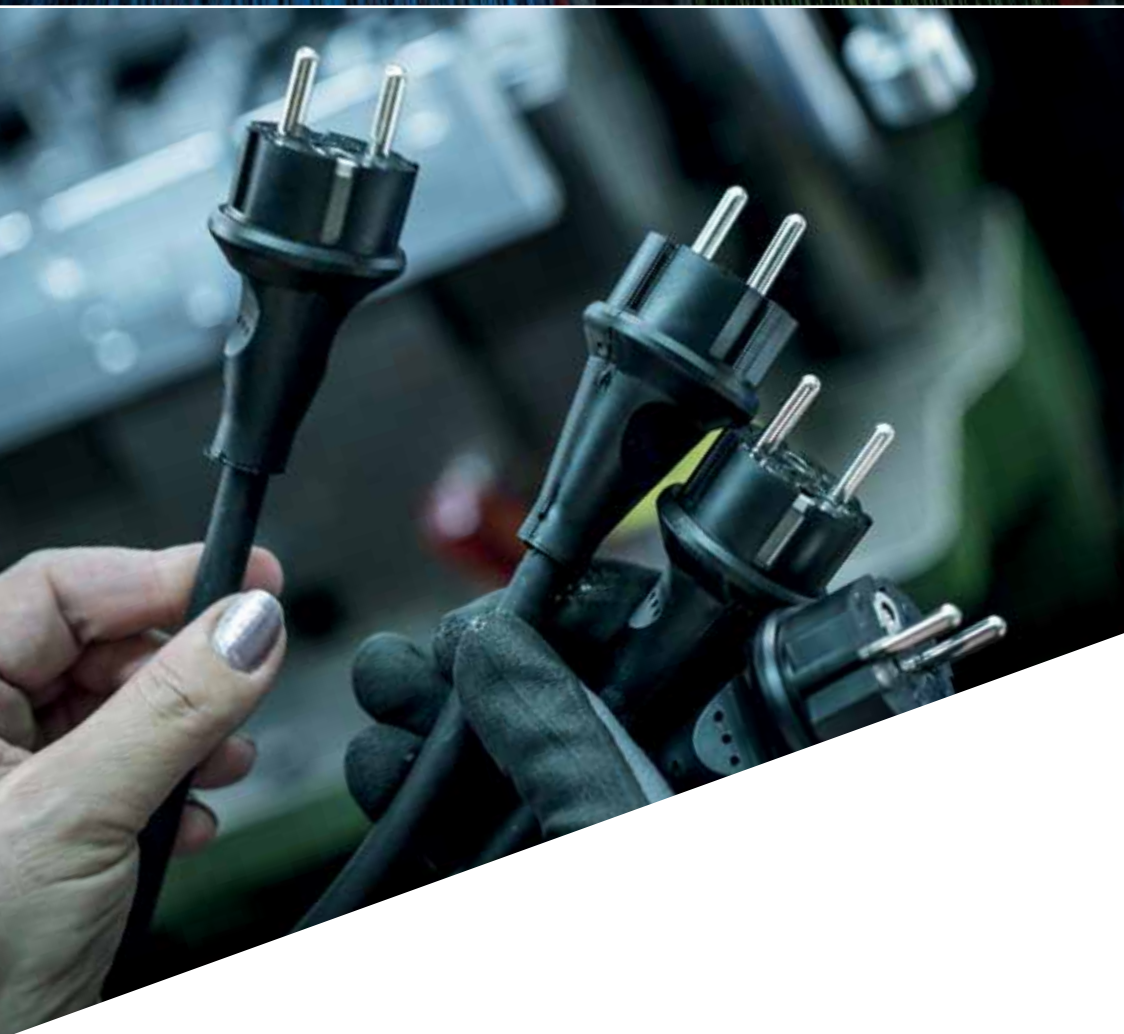

Our product range:

- Control cables
- Data cables
- Cables for drag chains
- VDE-approved cables
- Cables based on foreign standards
- Installation cables and single conductors
- Compensating cable and heat-resistant cables
- Halogen-free cables
- Flat cables, lift cables
- Ship cables
- Fire alarm cables, telecommunication cables
- Power cables
- Rubber cables
- Audio and lighting cables
- Coaxial cables, bus cables, spiral cables
- Solar cables
- Special types

Guaranteed connection security:

All kabeltec cables and wires are verified quality products and meet stringent security standards based on the applicable national and international standards, such as IEC, BS, BASEC, VDE, IMMEQUE, CE, USE, KEMA, DIN, ANSI, UL, CSA, MIL, OCMA, MESIC, EEMUA, SVE, UTE, JIS, KS, etc.

A WORLD OF CONNECTIONS.

THE WORLD COMMUNICATES THROUGH THESE CONDUCTORS.

The kabeltec group maintains business partnerships around the world and has made its name with an extensive product range across a wide range of industries.

The applicable standards may vary significantly from country to country, while each industry has its own specific technical requirements. Even more important, therefore, is our thorough expertise in every aspect of cable technology, which enables us to help our customers choose the right type of cable for a wide range of applications.

Industries:

- System control and automation
- Automotive
- Offshore facilities
- Shipbuilding
- Power plant construction
- Construction
- Data communication
- Petrochemistry, oil and gas
- Pharmaceutical industry
- Communication technology
- Transportation
- Coal mining
- Cement plants
- Gold mining
- Steelworks
- Paper and pulp industry

WORLDWIDE WELL CONNECTED.
