Environment | Policies

High impact on score

↗ **100**/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Environmental policy on energy consumption & GHGs
Environmental policy on product use
Quantitative objectives set on energy consumption & GHGs
Quantitative objectives set on customer health & safety
Exceptional policy on major environmental issues
Environmental policy on water
Environmental policy on customer health & safety
Environmental policy on product end-of-life
Environmental policy on materials, chemicals & waste
Quantitative objectives set on water
Quantitative objectives set on materials, chemicals & waste

Environment | Endorsements

Low impact on score

→ **100**/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

Endorsement of the Science Based Targets initiative - Committed

Endorsement of the United Nations Global Compact (UNGC)

Environment | Measures

High impact on score

● ↗ 75/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Improvement of energy efficiency through technology or equipment upgrades

Purchase and/or generation of renewable energy

Energy and/or carbon audit

Actions for labeling, storing, handling and transporting hazardous substances

Reduction of material consumption through process optimization

Environmental emergency measures in place

Specialized treatment and safe disposal of hazardous substances

Training of employees on energy conservation/climate actions

Training employees to safely handle and manage hazardous substances

Actions or training to raise employee awareness on waste reduction & sorting

Optimization of primary packaging for dimension and weight reduction or material mix simplification

Provision of information on efficient use, storage, and maintenance to extend product life

Company-specific emergency preparedness and response procedure regarding customer health and safety

Reduction of internal wastes through material reuse, recovery or repurpose

Internal sorting & disposal of waste according to waste streams

Mapping of waste streams

Dedicated feedback channel on health & safety issues of products

Use of waste heat recovery system(s) or combined heat and power unit(s)

Wastewater quality assessment

Technologies or practices to recycle or reuse water

Company awareness program for customers on health & safety issues associated with products/services

Provision of service parts, diagnostic tools, or maintenance programs to support product repair

Design features for easy disassembling, remanufacturing, or recycling of products

Environment | Certifications

Medium impact on score

● → 100/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

ISO 14001 certified

ISO 50001 certified

Environment | Coverage

● **100**_{/100}

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths

Supporting documents show an exceptional level of coverage of environmental actions or certification throughout company operations

Environment | Reporting

Medium impact on score

● → **50**_{/100}

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Declares none of the sites/operations located in or near biodiversity-sensitive areas (not verified)

Company reports to CDP

External assurance or verification of sustainability reporting

Reporting on total gross Scope 3 GHG emissions

Total gross Scope 3 GHG emissions reporting value confirmed in supporting documentation

Reporting on total energy consumption

Reporting on total weight of waste recovered

Reporting on total water consumption

Reporting on total gross Scope 1 GHG emissions

Reporting on total gross Scope 2 GHG emissions (market or location based)

Standard reporting on environmental issues

Company communicates progress towards the Sustainable Development Goals (SDGs)

Materiality analysis in sustainability reporting

Reporting on total gross Scope 3 downstream GHG emissions

Total gross Scope 3 downstream GHG emissions value confirmed in supporting documentation

Reporting on total amount of renewable energy consumed

Reporting on total weight of hazardous waste

Reporting on total amount of water recycled and reused

Reporting on total weight of non-hazardous waste

Total gross Scope 2 reporting value confirmed in supporting documentation

Total gross Scope 1 reporting value confirmed in supporting documentation

Reporting with reference to the GRI Universal Standards

Improvement areas

Low priority No information on the percentage of WEEE collected out of total EEE placed on the market

Labor & Human Rights High impact on score ● ↗ 80/100

Labor & Human Rights | Policies High impact on score

● ↗ 100/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Labor & human rights policy on social dialogue

Labor & human rights policy on working conditions

Labor & human rights policy on employee health & safety

Labor & human rights policy on child labor, forced labor & human trafficking

Labor & human rights policy on career management & training

Labor & human rights policy on diversity, equity & inclusion

Exceptional policies on major labor and human rights issues

Quantitative objectives set on working conditions

Quantitative objectives set on employee health & safety

Quantitative objectives set on career management & training

Quantitative objectives set on social dialogue

Quantitative objectives set on diversity, equity & inclusion

Quantitative objectives set on child labor, forced labor & human trafficking

Improvement areas

Low priority Declares that no commitment or review has been conducted regarding payment of living wage

Labor & Human Rights | Endorsements Low impact on score

● → **75**/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

Endorsement of the United Nations Global Compact (UNGC)

Labor & Human Rights | Measures High impact on score

● → **100**/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Communication to all employees of remuneration process (e.g. salary grid, procedure for salary advancement)

Employee satisfaction survey

Health care coverage of employees in place

Compensation for extra or atypical working hours

Bonus scheme related to company performance

Grievance mechanism on discrimination and/or harassment issues

Family Friendly programs (FFPs) implemented (e.g. parental or care leaves, childcare services or allowances)

Collective bargaining agreement on working conditions

Collective bargaining agreement on diversity, discrimination and/or harassment

Actions to promote the inclusion of employees with disabilities

Collective bargaining agreement on career management & training

Employee representatives or employee representative body (e.g. works council)
Awareness training regarding diversity, discrimination, and/or harassment
Actions in place to protect young workers
Awareness training on child labor, forced labor and human trafficking
Employee health and safety emergency action plan
Actions to address stress and psychological wellbeing in the workplace
Equipment safety inspections or audits
Skills development program tailored to employee needs
Training of employees on health and safety risks and best working practices
Collective bargaining agreement on employees' health & safety
Employee health & safety risk assessment
Age verification of candidates before hiring
Grievance mechanism on child labor, forced labor and/or human trafficking issues
Regular employee health check-up
Complaints procedure in place for employees to report on occupational health and safety issues
Regular assessment of individual performance
Individual development and career plan for all employees
Actions to promote internal mobility
The company declares its main operation(s) is located in a region where the right to freedom of association is not restricted by local law/regulation (not verified)

Improvement areas

- Low priority Further develop your remediation procedure for identified victims of child labor, forced labor, or human trafficking
- Low priority Further develop your remediation procedure for victims of discrimination or harassment

Labor & Human Rights | Certifications Medium impact on score

● ↗ 100/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

ISO 45001 certified
SA8000 certification
Specific employee health & safety management system certification

Labor & Human Rights | Coverage

● 100/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths

Supporting documents show an exceptional level of coverage of labor and human rights actions or certification throughout company operations

Labor & Human Rights | Reporting Medium impact on score

● → 75/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Comprehensive reporting on labor and human rights issues

Report on average unadjusted gender pay gap

Reporting on the percentage of women employed in relation to the whole organization

External assurance or verification of sustainability reporting

Reporting on number of average training hours per employee

Reporting on percentage of employees from minority and/or vulnerable groups at top management level

Reporting on the percentage of employees from minority and/or vulnerable groups in the whole organization

Company communicates progress towards the Sustainable Development Goals (SDGs)

Materiality analysis in sustainability reporting

Reporting on number of days lost to work-related injuries, fatalities and ill health

Reporting on number of recordable work-related accidents

Reporting on the percentage of women at top management level

Reporting with reference to the GRI Universal Standards

Improvement areas

Low priority

Declares reporting on ratio of the annual total compensation of the highest paid individual, to the median annual total compensation for all employees, but no supporting documentation available

Maxeon sues Tongwei for patent infringement in Germany

www.pv-magazine.com | 15 Jun 2023

Singapore-based Maxeon Solar Technologies has revealed that it has filed a patent infringement case against China-based Tongwei Solar and its German subsidiary, Tongwei Solar GmbH. Maxeon said it filed the lawsuit with the Dusseldorf district court in Germany. It claims that Tongwei infringed on its European Patent No. EP3522045 B1 for shingled solar cell panel technology. Maxeon uses the tec in its Performance Line solar modules.

Regular supplier assessment (e.g. questionnaire) on environmental or social practices

Training of buyers on social and environmental issues within the supply chain

Performing suppliers on environmental and social issues have access to unique incentives (e.g. supplier awards, preferred supplier program, access to RFPs)

On-site audits of suppliers on environmental or social issues

Global supplier diversity program in place

Supplier sustainability code of conduct in place

Capacity building of suppliers on environmental or social issues (e.g. corrective actions, training)

Improvement areas

Medium priority No conclusive documentation on sustainability risk analysis (i.e. prior to supplier assessments or audits)

Sustainable Procurement | Certifications

Medium impact on score

75/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

SA8000 certification

Sustainable Procurement | Coverage

50/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Improvement areas

Medium priority Supporting documents show a medium level of coverage of sustainable procurement actions throughout company operations or supplier base

Sustainable Procurement | Reporting

Medium impact on score

75/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Declares using no tin, tantalum, tungsten, gold, and/or their derivatives (Not verified)

Reporting on total gross Scope 3 upstream GHG emissions

External assurance or verification of sustainability reporting

Total gross Scope 3 upstream GHG emissions value confirmed in supporting documentation

Comprehensive reporting on sustainable procurement issues

Company communicates progress towards the Sustainable Development Goals (SDGs)

Materiality analysis in sustainability reporting

Reporting with reference to the GRI Universal Standards

Sustainable Procurement | 360° Watch

High impact on score

75/100

The 360° Watch Findings indicator is scored based on the data we gather by scanning thousands of sources in the public domain. This allows us to get a broader overview of your company's sustainability management.

Kiwa BCC shares the impact of the EU Green New Deal, and Tongwei Solar completes on-site assessment of SEE standards (CN)

caijing.chinadaily.com.cn | 07 Oct 2023

It is worth mentioning that in June this year, Kiwa Group issued a SEE on-site evaluation report to Tongwei Solar (Hefei) Co., Ltd., a wholly-owned subsidiary of Tongwei Co., Ltd. The report covers four parts: sustainable corporate governance, supply chain management, employee rights and interests, and environmental management, with a total of about 50 topics, and has high and widespread customer acceptance and authoritative credibility around the world.

The below disclaimers apply to you if you have no contractual relationship with EcoVadis:

1. This Scorecard has a validity of twelve (12) months from the issue date. The rating and this Scorecard have been prepared based on information provided by the rated company and in accordance with best industry practices and EcoVadis methodology, which may differ from those used by other companies conducting similar assessments. EcoVadis disclaims any liability for any actions and/or decisions taken by a third party, including any investment decision, based on the ratings and/or this Scorecard.
2. This Scorecard is based on the disclosed information and news resources available to EcoVadis at the time of assessment. Should any information or circumstances change materially during the period of the Scorecard validity, EcoVadis reserves the right to place the Scorecard on hold and, if considered appropriate, to re-assess and possibly issue a revised Scorecard.
3. This Scorecard is the intellectual property of EcoVadis and must not be: (i) copied, modified, translated, published, reproduced and/or (ii) used as part of or in connection with any other CSR/ESG assessment, unless agreed otherwise in a written agreement signed with EcoVadis.
4. This Scorecard is the confidential information of EcoVadis. Unless agreed otherwise in a written agreement signed with EcoVadis, this Scorecard and the rating must not be used by a third party as part of or in connection with any activity related to revenue generation and shared any further; it may be used only for a third party's internal purposes.
5. Only a Scorecard of a rated company having a Select subscription can be used for the purpose of ESG - linked loans and similar products offered by any financial institution outside of the EcoVadis solution.
6. The rating and this Scorecard have been prepared based on information provided by the rated company and in accordance with best industry practices and EcoVadis methodology, which may differ from those used by other companies conducting similar assessments. EcoVadis disclaims any liability for any actions and/or decisions taken by a third party, including any investment decision, based on the ratings and/or this Scorecard.
