

**DRIVING
THE WORLD'S SMART
ENERGY FUTURE**

About Us

Established in 2010, GoodWe is a world-leading smart energy solution provider, with the research and manufacturing of PV inverters and energy storage solutions at its core. With a long-standing strong presence in the solar market, GoodWe PV inverters have seen an accumulative installation of 100GW in more than 100 countries as of Q1 2025.

Company Award & Ranking

Reliable Partner in Large-scale Projects 2021

DNV issued a review report of GoodWe for its inverter technology and reliability. GoodWe is recognized as a bankable brand with higher product reliability by DNV. Concluded from the report, DNV views GoodWe as a well-established manufacturer of power conversion products with a successful history in design and manufacturing.

Top Quality and Great Lifespan 2015-2021

GoodWe is the sole inverter brand that has won the TÜV Rheinland All Quality Award for 7 consecutive years (2015-2021). More than 10 products for residential, commercial and industrial sectors are all proven to be reliable and have a long lifespan.

Wood Mackenzie

Energy Storage Veteran 2021-2024

As an innovation-driven company diving deeply into the energy storage sector for more than 10 years, GoodWe was distinguished as World's Top 3 Storage Inverter Supplier and one of the top three PV inverter suppliers in Europe for the year 2022 & in addition top-ranked in consecutive years by the authoritative SPI Test. The company boasts the most comprehensive portfolio in the industry, providing more than 20 energy storage products featured with advanced technologies such as UPS-level switching, 100% unbalanced output, and smart-load control.

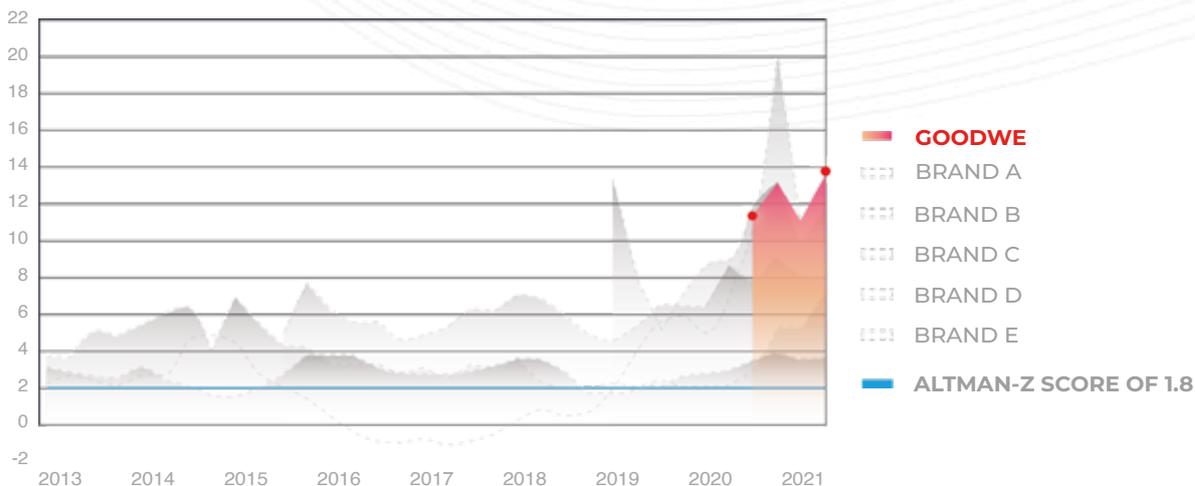

Lead the Way on Sustainability 2022

GoodWe has been awarded a Silver Medal by EcoVadis in 2022, which places it in the top 14% of the 100,000-plus companies across 175 countries that EcoVadis has rated. The award recognizes GoodWe's strong Environmental, Social, and Governance (ESG) performance, and reinforces the company's commitment to sustainable practices.

The Most Financially Stable Inverter Company

GoodWe's positive operating performance and solid potential over the period has landed it the highest Altman-Z score among PV manufacturers on BloombergNEF's 2021 report, displaying its strong financial health and bankability.

We Embrace Sustainability

We are dedicated to green production and sustainable development, consistently integrating ESG principles into our strategy and operations, and fostering communication and collaboration with stakeholders such as employees, supply chains, customers, and communities.

— — *GoodWe ESG Strategy and Management Committee*

WE SUPPORT

Since 2021, GoodWe has been committed to the UN Global Compact corporate responsibility initiative and its principles in the areas of human rights, labor, environment, and anti-corruption.

Leading by Example: On-Site Renewable Solar and Storage

To embrace the importance of going green, GoodWe's Guangde manufacturing base serves as an example for on-site renewable energy generation and storage. With about 5MW PV systems installed in Phase I and II by June 2024, it generates 4.8 million kWh annually—saving 1,600 tons of standard coal and reducing CO₂ by 4,200 tons. Additional solar-plus-storage projects are in development following the completion of its third phase. Reinforcing this commitment to green operations, GoodWe's new global headquarters, operational since 2024, is certified as a green building.
